Nurturing Buds to Blossoms

December 2021 & January 2022

## TABLE FOR CONTENTS

● KG1 & KG2 Project Based Learning & Culmination	01
● NURSERY - Quantification	02
● KG1 & KG2 Puppet Talk Activity	03
● KG1 & KG2 Vehicle Sound Activity	04
● GT Christmas Celebration	05-06
● GT Sankranti Celebration	07
● GT Free Hand Drawing	08-09
● Heritage Foundation Of Art & Culture National Level Inter - School Colouring Competition	10

## KG1 & KG2 PROJECT BASED LEARNING & CULMINATION

23rd November – 3rd December 2021 | "All's well that ends well". PBL, A Project Based Learning on the concept of 'Life on Land' for toddlers happened for 2 weeks where kids learnt about the different farms and wild animals found in the countries like Thailand, Kenya and Australia. They also did a comparison between the animals found in India.

The whole PBL was conducted for 10 days and each day our little blooms have experienced something new about gaining knowledge about the animals found in these countries.

We have used the ASK curriculum while doing the activities to develop the attitude to appreciate nature and also it helped them to improve their communications, creativity, fine motor and listening skills. Each of our little toddlers recollected unique information about the various farm and wild animals of different countries including India and spoke so confidently wearing a smile on their face by making various props such as headgear, templates mask related to the topic.

Finally 3rd Dec, the day of culmination where they all gathered together virtually with a similar backdrop, wearing a red colour attire to present what they have learned during these 10 days period.. Click on the links to see the activities conducted.

## NURSERY - QUANTIFICATION

9th December 2021 | Quantification is the formal name for the concept of figuring out how many things we have got. Counting is just one method of quantification. Children use counting as a method to quantify.

To revise the number concept, Quantify The Objects activity was conducted on 9th Dec for our Nursery Toddlers. Each child was asked to get a random object for each number for example. 1 - book, 2 - pencils, 3 - spoons etc and then they were asked to group the similar objects. After that child had to count the number of objects in each group in front of the class. After counting teacher randomly asked kids to show groups with a given number of objects. It was a very fun activity and all the kids enjoyed it. Here are a few glimpses of the activity

## KG1 & KG2 PUPPET TALK ACTIVITY

17th December 2021 | Children love puppets. Puppets are not only fun to play with but they also help the kids in their teaching and learning process. Activities like 'Puppet Talk' enhances social skills, develops imagination and creative thinking, develops fine motor skills, improve their language and communication skills and moreover build confidence in them.

KG1 & KG2 kids of Global Toddlers enjoyed the Puppet Talk activity held on 17 Dec 2021 where they showcased their abilities and talked about EVS Concepts and also about their favourite cartoon characters with different types of colourful puppets. Well done kiddos!!!

## KG1 & KG2 VEHICLE SOUND ACTIVITY

21st December 2021 | Preschool activities are really important to enhance the quality of learning in kids. With the temporary closure of schools and kindergartens, play-based learning activities can help children to continue learning. Keeping this in mind, we in global toddlers incorporated play-based activities in our curriculum in many instances. One such activity was conducted for the concept of transport, wherein, the sounds of different vehicles like ambulances, cars, aeroplanes, bicycles, helicopters, bikes, etc., were played by the teacher one after the other and the toddlers were encouraged to listen and guess the name of that vehicle. This helps in developing creative thinking, auditory discrimination, and problem-solving skills as they try to identify the sounds of things they cannot see.

## GT CHRISTMAS CELEBRATION

24th December 2021 | The arrival of the month of December reminds us of two great occasions. The first occasion is Christmas, followed by the celebration of New Year. Christmas celebration at the end of the year gives a good farewell to the passing year. It is a great occasion in the ending month of the year for which we all eagerly wait every year.

The preparations for the Christmas celebration started a week before the arrival of Christmas in Global Toddlers. The teachers happily decorated the Christmas tree, classroom and the corridors of the school with balloons and streamers to bring in the good vibes.

Teachers organised a virtual pre-Christmas celebration. It started with a note from the beloved Head-Mistress, Mrs. Bibhudutta Satpathy, followed by an art activity. While the toddlers were busy with the activity, Mr. Santa Claus binged in with a tintinnabulation of the bell and surprised them with his lovely moves. Children were so happy to see the Santa in their class. The festive spirit was enjoyed by all with snacks and a dance party.

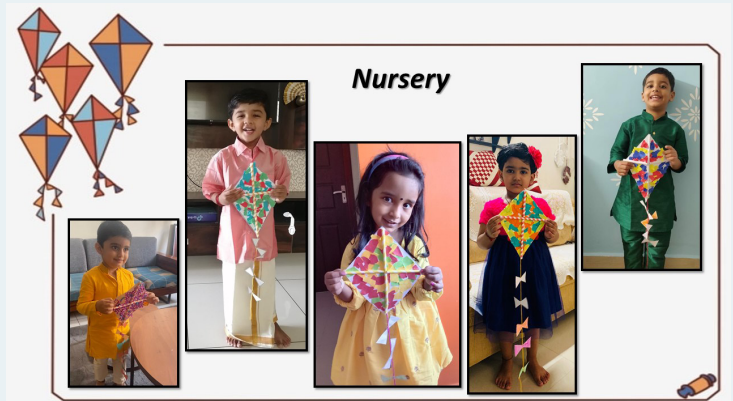

GT CHRISTMAS CELEBRATION

## GT SANKRANTI CELEBRATION

13th January 2022 | Pongal, Makara Sankranti, Bihu, Uttarayan, Lohri yes it's the festive time. It's the 'Harvest festival' and the time to celebrate and rejoice. Our Nursery, KG1 & KG2 children celebrated the festival on 13th Jan by dressing up in their ethnic attires by doing dal sticking activity. They also watched a video explaining the reason behind the celebration and the different names by which it is celebrated in different places in India. They danced to the festive tunes and rejoiced for the celebration

## GT FREE HAND DRAWING

28th January 2022 | India has a "Tropical Monsoon" type of climate. This means there are different types of seasons in India like Winter, Spring, Summer, Autumn and Monsoon. This is because a greater part of India lies in the tropical zone and its climate is greatly influenced by the monsoon winds.

India is one of the few countries that face a lot of variations in terms of seasons. The average time of each season differs from two to three months. The types of seasons in India are based on several factors such as altitude, latitude and pressure winds. Our toddlers did free hand drawing of seasons on 28th Jan 22. Few of them drew all the seasons and few of them drew their favourite season. This activity helped them to remember and relate the seasons of India.

GT FREE HAND DRAWING

# HERITAGE FOUNDATION OF ART & CULTURE NATIONAL LEVEL INTER - SCHOOL COLOURING COMPETITION

Master Vihaan Sah of Nursery and Aadrittha Rai of KG1 participated in Rhyme-O-Rhyme-Inter-School Recitation and Colouring competition organized by Heritage Foundation of Art and Culture and bagged 21st and 10th Rank respectively in the National Level Inter-school Colouring Competition.

Heartiest Congratulations to Vihaan and Aadrittha!

## ABOUT US

"Education is the manifestation of the perfection already in man.  
Education is not the learning of facts, but the training of minds to think"

We are the Preprimary toddler wing of Whitefield Global School

"The ladder that helps them to reach to the stars".

A home away from home we are a growing family of 400 toddlers.

We always strive for the betterment of Y(our) child.

Whitefield Global School "WGS", an Institution of Chalasani Education Trust, is totally committed to imparting holistic education to the children and turn them into responsible global citizens for the future.

We aim to provide quality education using a fine blend of modern techniques with the time tested ideas and methods, with every forth coming moment inspiring us to do better than the one passed.

We enable each student to realize his/her potential by providing them an institutional culture, characterized by dynamic implementation of the curriculum, augmented by a huge variety of co-curricular and extra curricular activities with highly individualized mentoring. Thereby turning the facility into a great opportunity for personality enrichment and inculcating life-oriented skills, values and competencies, much needed for employability and entrepreneurial initiatives.

## OUR VISION AND MISSION

To be the pioneer in early childhood learning by treating every child as a bud ready to bloom naturally by providing safe, secure environment and nurturing all the essential skills that will make the buds blossom naturally
