1ST DAY OF SCHOOL (COMMON FOR NURSERY, KG1, KG2)

On the first day of school amid the pandemic, both the parents and children were happy to be back to school. The start of the school year seemed more overwhelming than ever before.

It was time to wake up early in the morning, time to dress up in a tidy uniform, time to pack snacks, and time to be excited to see the class, new friends, and new teacher. Teachers observed mixed feelings of excitement, joy, tears, and confusion among the students and parents.

Our empty corridors were filled with the joyous sounds and weeping sounds of our little toddlers. Even though they were all curious to see their school, leaving their parents behind was the toughest part.

They were all a little cranky and took their time settling down. Later, they had a wonderful time with their teacher and friends. Here are a few glimpses.

1ST DAY OF SCHOOL (COMMON FOR NURSERY, KG1, KG2)

FATHER'S DAY ACTIVITY (COMMON FOR NURSERY, KG1, KG2)

Father's Day is a celebration of honouring the father and celebrating fatherhood and the role of the father in shaping the lives of their children. Global toddlers celebrated Father's Day in their own special way. It was the very first event celebrated in GT this year. The children made a beautiful hand-printed card with a lovely message inside it to honour their father, their hero.

The children were super excited to present their first handmade card to their loving father. They made sure that the teacher kept the card inside their bag without fail.

We are sure the card is going to bring immense pleasure and joy when the little ones present the card to their father with an innocent smile and a warm hug.

FATHER'S DAY ACTIVITY (COMMON FOR NURSERY, KG1, KG2)

INTERNATIONAL YOGA DAY (COMMON FOR NURSERY, KG1, KG2)

The practice of Yoga leads to the union of individual consciousness with that of Universal Consciousness, indicating a perfect harmony between body and mind. On June 21st, as the entire world celebrated World Yoga Day, our toddlers at Global Toddlers did not want to be left behind. Following the demonstration shown to them, all the kids enthusiastically copied the simple yoga postures demonstrated. It was a wonderful experience to watch this little one enjoy and do the yogic asanas with ease and confidence. Here are a few glimpses of the International Yoga Day celebrated by GT children.

SENSE ORGAN ACTIVITY (COMMON FOR KG1 & KG2)

Tell me, and I'll forget.
Teach me and I may remember.
Involve me and I'll learn.

Activity-based learning always encourages toddlers to learn much better. Hence, our GT children enjoyed learning about sense organs with hands-on experience.

Teachers brought a few things like bowls of salt and sugar, perfume bottles and garlic, soft and hard toys, and a bowl with a spoon or bell. The activity focused on the functions and importance of the five senses in our body—sight, smell, hearing, taste, and feel.

Children got a hands-on experience by tasting sugar/salt; smelling perfume/garlic; hearing the bell sound; by touching and feeling the hard/soft toy; and by seeing all the different tactile materials kept on the table. The activity kept the children involved till the end, as each child had a great time performing the task related to each sense.

FAMILY DRESS UP ACTIVITY (COMMON FOR NURSERY, KG1, KG2)

Do we all remember dressing up as our favourite teacher or a princess or like our mother or father when we were little? Many of us eagerly transform our wardrobe into something imaginary on a regular basis.

Today, dressing up is not only fun but also helps the children to construct and celebrate their learning.

Hence, Global Toddlers organised a dress up as a favourite family member activity, which is educational and motivational for the young ones. It is an ideal way for toddlers to work on so many early childhood developmental skills, like literacy and life skills.

Family is the most important and valuable gift that God has given us. It is the only place where life begins and love never ends. It also means having respect for each other, their roles and responsibilities.

It was a pleasure to see each child dressed up and enacting like their father, mother, or grandparents and sharing a few interesting things about them in their honey-dipped sweet voices. Here are a few glimpses.

Nursery Shape Collage Activity

Nursery Shape Collage Activity

NURSERY SHAPE COLLAGE ACTIVITY

Shapes are all around us. Learning about shapes will help us in our day-to-day life as most of our activities revolve around and depend on them.

Our nursery kids did a shape collage activity on July 15th, 2022. They had to transform a plain picture of shapes into a colourful one. They identified the shape on the paper and stuck the corresponding colourful shape to it with the help of their teacher. Here are a few pictures of this activity conducted.

FIELD TRIP (COMMON FOR NURSERY, KG1, KG2)

"Look deep into nature and you will understand everything better."

The natural world is an incredible wonder that inspires us all. We are in an era where every tree is being cut to make way for big buildings. We should learn to conserve and preserve nature. To inculcate the importance of conserving our nature, we in GT took our toddlers to a nearby park for a field trip.

The trip was a much-needed break for our kids from the usual routine, pollution, and traffic-ridden roads. The children got to see many trees and plants that had medicinal value. They also saw a house made of wood for insects known as the Insect Hotel. Our tiny tots saw a lot more while taking a stroll in the park. They also enjoyed playing in the play area of the park. All the children were excited and thrilled. Here are a few glimpses from the field trip.

COLLAGE MAKING ACTIVITY (COMMON FOR KG1, KG2)

We in GT always believe that the concepts being taught and the activities done in the class should go hand in hand. With this thought in mind, we conducted a collage activity on fruits and vegetables for KG1 and KG2 children on July 22nd, 2022. Collage can help children to be creative and learn about design, patternmaking, dimension, and composition. KG1 students brought cut-outs of various fruits and vegetables to stick on their activity sheet. The KG2 children were given glossy paper of different colours, which the children tore and stuck on the fruits and vegetables. We even got to see our children share some of the materials with their peers while doing the activity. The collage activity was enjoyed by all the children, since every child wanted his/her picture to come out perfectly without any flaws. The activity also improved the children's concentration skills. Here are a few glimpses of the activity.

FRUGITABLE WEEK (COMMON FOR NURSERY, KG1, KG2)

"Investing in early childhood nutrition is a sure-fire strategy, and the returns are incredibly high."

Fruits and vegetables are good sources of vitamins and minerals, and there are other essential nutrients that also help to maintain a healthy body. The intake of fruits and vegetables by children has drastically gone down, and many children have become fussy about eating fruits and vegetables.

To imbibe the goodness of eating fruits and vegetables, we at Global Toddlers have arranged a frugitable week for our toddlers from July 25th to July 28th. The children had to get fruits and vegetables as their snacks.

The healthy week started on a positive note with the children getting different fruits for fruit salad on July 25th, 2022. All the children got the fruit allotted to them. They lent their helping hands in the preparation of fruit salad. The fruit salad was loved by every child, and they enjoyed eating it.

On the 26th of July, the children got apples and cucumbers, followed by corn and pomegranates on the 27th of July. On July 28th, the children got guava and carrots. Each day the children were enlightened about the benefits of eating fruits and vegetables. The fruitful week was very much needed for you and it was indeed enjoyed by every child in GT. Here are a few glimpses of the frugitable week.

GT MARKET DAY (COMMON FOR NURSERY, KG1, KG2)

Skyscrapers, malls, and supermarkets have taken a toll on the petty shops that sell fruits and vegetables. As children, we all grew up seeing our parents getting vegetables and fruits from the market, and we have also seen the priceless smile that brightens up the vendor after the customer purchases the things from his/her shop. The 2K kids hardly get to see or go to the market to buy vegetables. On July 29th, 2022, we in GT recreated a fruit and vegetable market for our toddlers to take in the actual scene of the market. Each child got the allotted fruits and vegetables. The children got hands-on experience by being buyers, and KG2 children also got a chance to sell fruits and vegetables. The toddlers were so excited as they got to see what actually happens in a market. The fruits and vegetables were later given to Cottelengo Special School, Whitefield. Here are a few glimpses of the GT Market Day.

KG2 VIVA VIVACIOUS SELECTION PROCESS

Viva Vivacious, an inter-school football tournament for the age group of 4.5 to 5.5 years, is a very prestigious event for Global Toddlers.

Every year, close to 15 schools participate in this event to conquer the title of being the Messi or the Martha team. After two years of pandemic, we in GT started the process of selecting our very own boys' and girls' football teams. The selection process started on July 8th and continued till July 15th, 2022. Each section was taken on a particular day for the selection process, and based on the NOC received from parents, children participated in the selection.

The selection process was completely based on different sets of criteria like listening skills, dribbling skills, running skills, etc. Each child proved his or her strength in the process. We wanted all the children to be a part of the team, but there could be only 10 players in each team. There were three rounds of selection, and finally our GT Messi team and GT Marta team were selected by our sports coordinators. Here are a few glimpses of how the selection process took place.

KG2 VIVA VIVACIOUS INTER-SCHOOL FOOTBALL TOURNAMENT DAY 1 AND DAY 2

The flagship event of Global Toddlers, the Viva Vivacious Inter-school Football Tournament, was back with a bang in physical form after 2 years. This is the 12th year of this mega event.

The tournament was conducted from 1st to 3rd September. We had around 11 schools that participated on day 1 of the tournament. There were 12 Messi teams among the boys, including the home team, and 11 Marta teams among the girls, including the home team. All those who participated in the tournament were very excited, and their performances added charm to the entire event. There is no doubt that some of these rising stars will make their way to the national and international levels in the future, adding feathers to their caps and making us very proud.

Apart from some breath-taking matches, the opening ceremony on September 1st was a memorable and remarkable occasion. We had the invocation dance by KG2 Daisy & Jasmine children and a lovely drill performed by KG2 children of the Lily & Lotus section. Here are the glimpses from Viva Day 1. Those who qualified moved on to play the semi-finals on Day 2.

KG2 VIVA VIVACIOUS INTERSCHOOL FOOTBALL TOURNAMENT DAY 3

Once again, our toddlers have proved their talent and skills. It was an amazing, nail-biting battle in the semi-finals between our boys' home team and Greenwood High Preschool, Bannerghatta Road. Unfortunately, our boys (Messi) team could not make it to the finals, but the semi-finals played with Greenwood High Preschool left each spectator in awe. Our players, driven by their indomitable spirit, were simply marvellous.

Our girls (Marta) team made it to the finals and yet again played a nail-biting match against Greenwood High Preschool Bannerghatta Road girls. The home team, Global Toddlers, won the match and became the winners of Viva Vivacious 22-23 in the Marta category.

The final matches were followed by a cheerleader dance competition where we had 6 schools who had participated. Our Global Toddlers showed some amazing and spectacular moves and became the runners up in this competition. The closing ceremony witnessed a remarkable performance by our KG2 children from Rose & Sunflower. The event ended with the prize distribution ceremony by our own Vice Chairman, Mr. Srinivas Kumar, and our Headmistress, Ms. Bibhudutta. Here are a few glimpses of Viva Day 3.

GT TEACHERS DAY CELEBRATION (COMMON FOR NURSERY, KG1, KG2)

Teaching is the one profession that creates all the other professions. A good teacher is one who can inspire, hope, ignite, and instill a love for learning.

Our toddlers of GT expressed their love, respect, and gratitude for their teachers on this Teacher's Day by gifting them lovely cards made by their tiny little hands, giving them flowers and chocolates just as sweet as they are.

All the teachers were overjoyed with this gesture from our toddlers. Here are a few glimpses of all the smiles.

NURSERY LEAF DABBING

NURSERY LEAF DABBING

NURSERY LEAF DABBING ACTIVITY

The Leaf Dabbing Activity was held for the students of Nursery on September 20th, 2022. The activity was planned under the theme of September's concept, "Types of plants." Children enthusiastically learnt the art of using leaves to print patterns. On a sheet, they coloured in the outline of the given tree trunk using crayons. Then they used poster colours and leaves of different sizes for the dabbing activity. Children dipped the leaves in the paint and placed them on the paper, pressing firmly and transferring the paint from the leaf around the tree trunk, creating a beautiful picture of a tree. Children were amazed and delighted by their priceless piece of art. Here are a few glimpses of children's artwork.

NURSERY SEED GERMINATION & NATURE WALK

NURSERY SEED GERMINATION & NATURE WALK

NURSERY SEED GERMINATION ACTIVITY

Watching seeds grow is an amazing science lesson for kids, as they are very curious about life and the growth of living things.

As part of the experiential learning, the seed germination activity was done for the students of Nursery on September 9th, 2022, with the aim of demonstrating how plants develop from seeds. The students germinated the seed in a cup under the guidance of the teacher and noticed the growth over a week's time. It gave them the opportunity to see how a seed grows and what was actually happening under the ground! During the week, the kids continued watering the plant and nurturing it. Their happiness was at its peak when they saw a little plant coming out. To emphasise this topic more, teachers took them for a nature walk on the school premises to see different types of plants. It was a fun experience for them.

The awesome seed-growing activity turned out amazingly well, and the kids loved checking the progress each day! Here are a few glimpses of the activity.

GT DUSSHERA SPECIAL ASSEMBLY (COMMON FOR NURSERY, KG1, KG2)

India is well known as the land of festivals. Festivities with family and friends bring joy, happiness, and a strong sense of humanity. We in GT celebrated Dussehra in a very special way. The teachers' skit and dance performances, which conveyed the story and significance of this big festival, were much enjoyed by our toddlers. The children, well dressed in their traditional attire, added colour and beauty to the celebration. As a part of the festive memory, the kids happily carried the Dussehra takeaway, which they made in the class, along with the message that Good always conquers Evil. Here are a few glimpses of our celebration.

ABOUT US

"Education is the manifestation of the perfection already in man. Education is not the learning of facts, but the training of minds to think"

We are the Preprimary toddler wing of Whitefield Global School

"The ladder that helps them to reach to the stars".

A home away from home we are a growing family of 400 toddlers.

We always strive for the betterment of Y(our) child.

Whitefield Global School "WGS", an Institution of Chalasani Education Trust, is totally committed to imparting holistic education to the children and turn them into responsible global citizens for the future.

We aim to provide quality education using a fine blend of modern techniques with the time tested ideas and methods, with every forth coming moment inspiring us to do better than the one passed.

We enable each student to realize his/her potential by providing them an institutional culture, characterized by dynamic implementation of the curriculum, augmented by a huge variety of co-curricular and extra curricular activities with highly individualized mentoring. Thereby turning the facility into a great opportunity for personality enrichment and inculcating life-oriented skills, values and competencies, much needed for employability and entrepreneurial initiatives.

OUR VISION AND MISSION

To be the pioneer in early childhood learning by treating every child as a bud ready to bloom naturally by providing safe, secure environment and nurturing all the essential skills that will make the buds blossom naturally
