## From the Desk of Head Mistress

Dear Tiny Tots and Loving Parents,

The past two months of this ongoing academic year had diverse topics and interesting activities intended for our youths. October and November offered students a diverse array of learning experiences such as visiting different animal species and means of transport; commemorating Dusshera and Diwali festivals. The KG2 mega event 'Viva Vivacious Interschool Football Tournament' remained one of the most notable achievements that saw participation from all over Bangalore among the youngsters playing football.

Lighting up our Dusshehara revealed the importance of this blessed day with good triumphing against evil. GT teachers played the story of the victory of ma Durga over Mahisasur and entertained our children with their colourful images representing the true nature and spirit of the festival.

The competitions provided opportunities for sharpening critical skills among our KG2 and KG1 children. Each child's ability to tell a story played out in the Marionette theater competition wherein emphasis was on critical thinking and creativity. The clay modelling at Ganesh Chaturthi also communicated the significance as well as the fun that goes with this kind of festival.

There was a blend of fun, innovation and happiness at Diwali and Children's Day. The students displayed their artistic abilities during Diwali while our teachers entertained children with plays on children's day.

The surprise it gave to the teachers is an indicator that the nursery children were confident and able communicators when assessed on an instant transport show & tell activity in a nursery school.

The 2-week project-based learning looked back at transport development over the last 200. The third stage was a highly immersive learning period that led to a final culminating event including parents.

Our commitment towards giving dynamic learning avenues to our young learners persists as time goes by. Future months will bring new and exciting learning experiences for our toddlers' rich education.

Warm cuddles,

**Mrs Bibhudutta Satpathy**

# Nursery Experiential Learning

## Nursery

Experiential Learning helps you learn instead of just remembering. This year the topic we choose for our Nursery kids was "Transport". Our tiny tots learned about different types of Transport. It created an awareness about importance and types of different modes of transportation.

During the experiential learning period from November 20th-24th the little ones did different activities like finger printing, pick and speak, paper sticking and worksheets.

## KG1 & KG2 PBL

### KG1 & KG2

At Global Toddlers, we truly believe that exploring, hands-on experiment, learning and sharing knowledge helps children in their progressive development.

Vaahan Vikas ki Katha" or "The unfolding saga of Transport Evolution " was the name of our Project Based Learning. This year we chose the topic of Evolution of transport, where children explored all the modes of transport and their gradual evolution with time and technology. During the 5-day PBL period from 20th Nov to 24th Nov children made models of different vehicles for each mode of transport followed by the interrelated worksheet.

## PBL Culmination

Nursery, KG1 & KG2

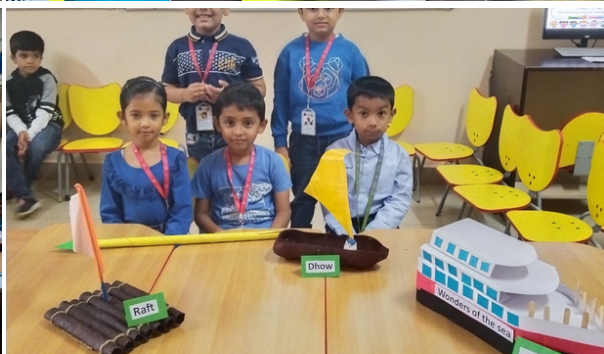

The culmination of PBL "Vaahan vikas ki katha- An unfolding saga of vehicle evolution" took place on Nov 29th, where all the parents were invited to have a glimpse of activities done by our children. The event was inaugurated by our chairman, Dr. C. Poornachandra Rao, Academic Director, Dr. Sarada Chandrasekaran and our HM Bibhudutta Satpathy. The students were grouped according to different modes of transport.

Children presented their learning to the parents. This instilled high-level skills like critical thinking, teamwork, and communication. Finally, children showed pictorial glimpses of the activities done during the period through a PPT. All of their toddler's activities, worksheets, and knowledge were visible to the parents. They were mesmerized by the confidence exhibited by all students.
